

SANDSTONE CLEANER

PRODUCT DESCRIPTION

- High performance cleaner which removes organic and microbiological soiling from sandstone substrate.
- The surfaces can then be simply rinsed with water without using a pressure washer. High penetrating power.
- Waterborne product. DOES NOT contain potassium hydroxide, hydrochloric or phosphoric acid, quaternary ammonium or solvents. It does not alter the colour of the sandstone surface.

IMPORTANT BEFORE USE

Do not mix with acids or other cleaning products, may release dangerous gases (chlorine). Do not apply on metallic or impermeable materials. Do not allow product to come into contact with plants, shrubs or grass. Do not apply during rain, frost or when surface and air temp is <5°C & >30°C. Do not dilute or mix with any other product. Never proceed without carrying out a test patch to ensure surface compatibility. For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).

APPLICATION

Always test a small area before proceeding to ensure finished result is acceptable.

- Shake the container well before use. Do not dilute or mix with other products. If there is a thick layer of fungi or moss, firstly use a broom to brush off as much as possible before applying.
- Apply in dry weather on a damp surface.
- Leave ideally overnight (which is the preferred method) or at least for a minimum of 60 minutes.
- Allow for more time in cold weather (<10°C). Rinse with water/jet wash and use a broom to brush away.
- Clean tools and equipment immediately after use with soapy water.

Shelf Life & Storage: 24 months from the date of manufacture in the original unopened container. Store locked up in dry place between 5°C and 25°C in the original container.

KEY FEATURES

- Effective heavy duty cleaner
- Removes organic & microbiological soiling from sandstone substrate
- Fast acting & easy to use
- No pressure washer required
- For vertical & horizontal surfaces

TECHNICAL DATA

Colour: Off White

Specific Gravity @ 25°C: 1.08

• Odour: Barely Perceptible

Form: Liquid

 Application Temperatures: Minimum +5°C Maximum 30°C
