

CLEAN & PROTECT ALL WOOD SURFACES

PRODUCT DESCRIPTION

Professional formula designed to cleanse heavy surface contamination along with providing a breathable protective seal to all wood surfaces. Active ingredients work over time on the surface to clean, remove soiling, lichen, algae and seal in one saturated application.

SURFACE PREPARATION

Always test a small hidden portion of the substrate before use, to ensure the final result is satisfactory and to calculate consumption. Do not apply in damp/wet conditions or if rain is expected within 12 hours of application. Surface should be completely dry and free of loose debris and heavy growth.

The product is ready to use-do not dilute.

APPLICATION

1. Shake the can well before use.
2. Apply a generous, even coat.
3. Ensure saturation of contaminants and substrate.
4. Leave the product to do the work.

On **light contaminated** surfaces a visible difference can be seen within 7 days.

On **heavily contaminated** surfaces it can take a couple of months to see the results.

Clean tools and equipment immediately after use soapy water.

CURING

Water repellence is evident after initial curing but repellency will increase to 100% efficiency over 14 days.

Keep away from shrubs, plants and grass. Keep children and pets away until the surface is dry.

KEY FEATURES

- Apply only **ONCE** for up to 5 Years of Lasting Protection!
- Removes soiling, lichens & algae
- Protects & preserves wood surfaces
- Breathable formula, transparent seal
- Safe & effective for all wood surfaces

TECHNICAL DATA

- Contains : < 5 % cationic surfactant

SHELF LIFE & STORAGE

24 months from the date of manufacture in the original unopened container.

Keep out of reach of children.

Store locked up in dry place between 5°C and 25°C in the original container.
